This information does not address individual situations and should not be construed or viewed as any type of individual or group recommendation. The Company's track record for the Multi-Asset Risk Strategy for January 2010 through May 2017 includes the performance record established by the Portfolio Manager while affiliated with a prior firm. Astoria's Multi-Asset Risk Strategy performance with prior firm is shown net of advisory fee of 0.50% charged by Astoria Portfolio Advisors and reflects the deduction of trading costs.

The performance for June 2017 through March 2021 represents the composite performance for accounts invested in the Multi-Asset Risk Strategy. The composite performance is shown net of the model advisory fee of 0.50% charged by Astoria Portfolio Advisors and includes trading costs. The composite performance results are net of Astoria Portfolio Advisors' fee and does not include any additional advisory fees charged by advisors employing Astoria's models.

Any additional fees charged by an advisor will reduce an investor's return. Performance results shown include the reinvestment of dividends and interest on cash balances where applicable. The data used to calculate the model performance was obtained from sources deemed reliable and then organized and presented by Astoria Portfolio Advisors. The performance calculations have not been audited by any third party. Actual performance of client portfolios may differ materially due to the timing related to additional client deposits or withdrawals and the actual deployment and investment of a client portfolio, the reinvestment of dividends, the length of time various positions are held, the client's objectives and restrictions, and fees and expenses incurred by any specific individual portfolio.

**Benchmark:** The Multi-Asset Risk Strategy performance results shown are compared to the performance of 50% MSCI All Country World Index (NDUEACWF), 30% Bloomberg Barclays Global Aggregate Bond Index (LEGATRUU), and 20% Wilshire Liquid Alternative Multi-Strategy Index (WLIQAMST). The index results do not reflect fees and expenses and you typically cannot invest in an index. **Return Comparison:** Both the MSCI All Country World Index and the Bloomberg Global Aggregate Bond indices were chosen as they are generally well recognized as an indicator or representation of the stock and bond market and include a cross section of holdings. Also, the Wilshire Liquid Alternative Multi-Strategy Index was chosen as it is generally well recognized as an indicator or representation of liquid alternative holdings. Indices are typically not available for direct investment, are unmanaged and do not incur fees or expenses.
